What We Do

MiddleMan is a versatile web-based platform tailored to everyone, whether you're a yacht operator, a provisioning company, or a local store owner. Buyers can easily submit their provisioning list and receive competitive quotes from reliable local vendors. Effortlessly set up a delivery or collection location and access a 24-hour chat system to discuss finer details.

Our platform seamlessly connects buyers with local provisioning suppliers, expanding reach for both sides. Simply put: Buyers gain access to more suppliers, and suppliers gain access to more clients. Our aim is to ensure a seamless provisioning experience by connecting the right people with the right people.

with the right people.*

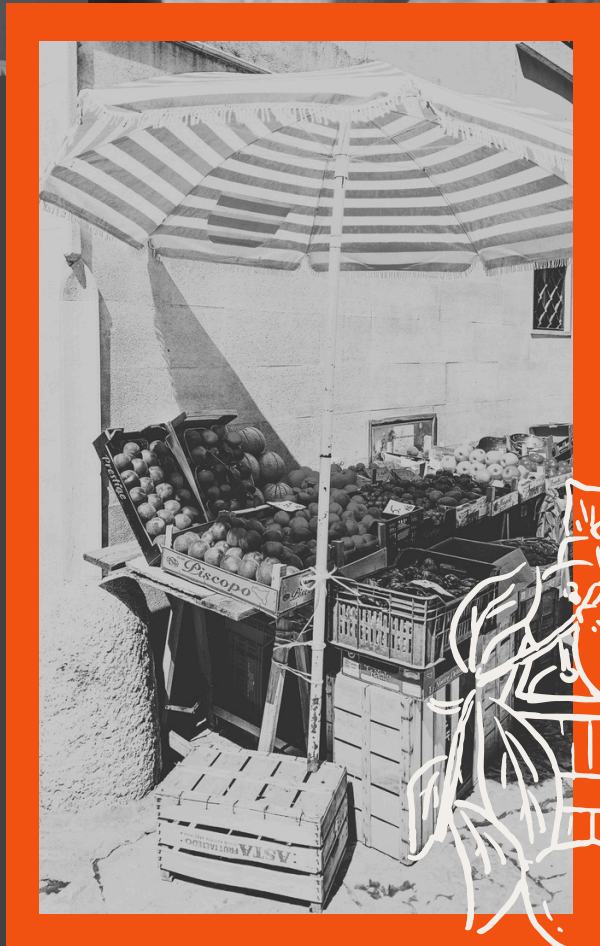

Our Story

MiddleMan was born from a deep appreciation for the yachting community and the challenges faced by both buyers and suppliers worldwide.

Motivated by firsthand experiences, we have set out to revolutionize provisioning. Our platform seamlessly connects yachts with local vendors, ensuring both buyers and suppliers benefit, creating convenience above all.
